

August 2019 version

Starbuzz Soccer Club is a non-profit Football game made with Dark Basic Pro Software.

You can create leagues, tournaments and cups and simulate all football competition (World Cup, Champions League, etc.) More than 300 teams are available (International teams, clubs from first league of France, England, Italy, Spain and Germany and best teams from European Cups.)

#### Installation Of The Game :

Unzip the StarbuzzSoccerClubPlusRelease.zip file in a folder and launch the StarbuzzSoccerPlus.exe file.

Each time you launch the game you will see a black screen displaying the last resolution of the screen used in the game. You can change it with Left or Right arrows and select the one you want by pressing Space.

Thanx to have downloaded this game and feel free to release it. Hop you enjoy.

Use a Joypad to move in the menus.

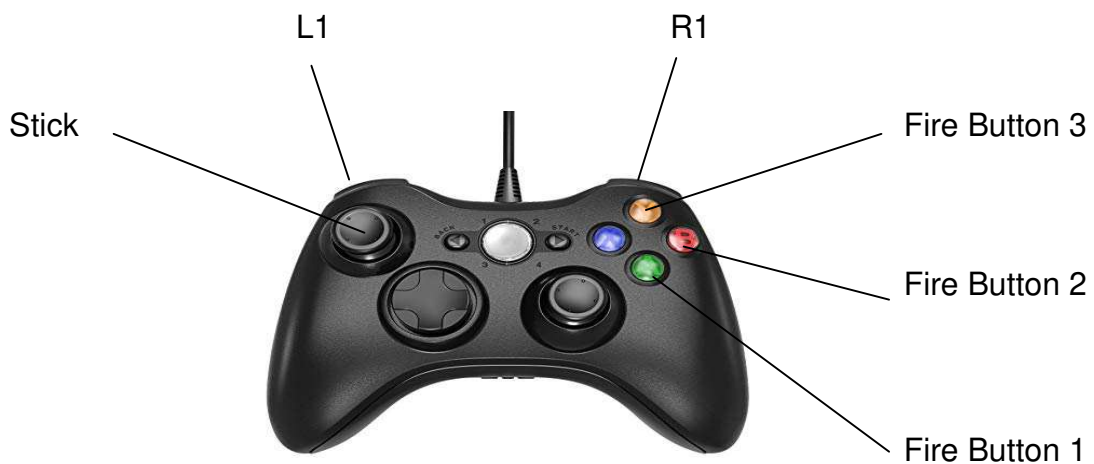

Use Fire button 1 to select.

Use Up and Down to move in the menu.

Most of the time you change the option by pressing Fire button 1 but sometimes this should be done with Left or Right.

---

### Here are the joypad buttons used in the game :

---

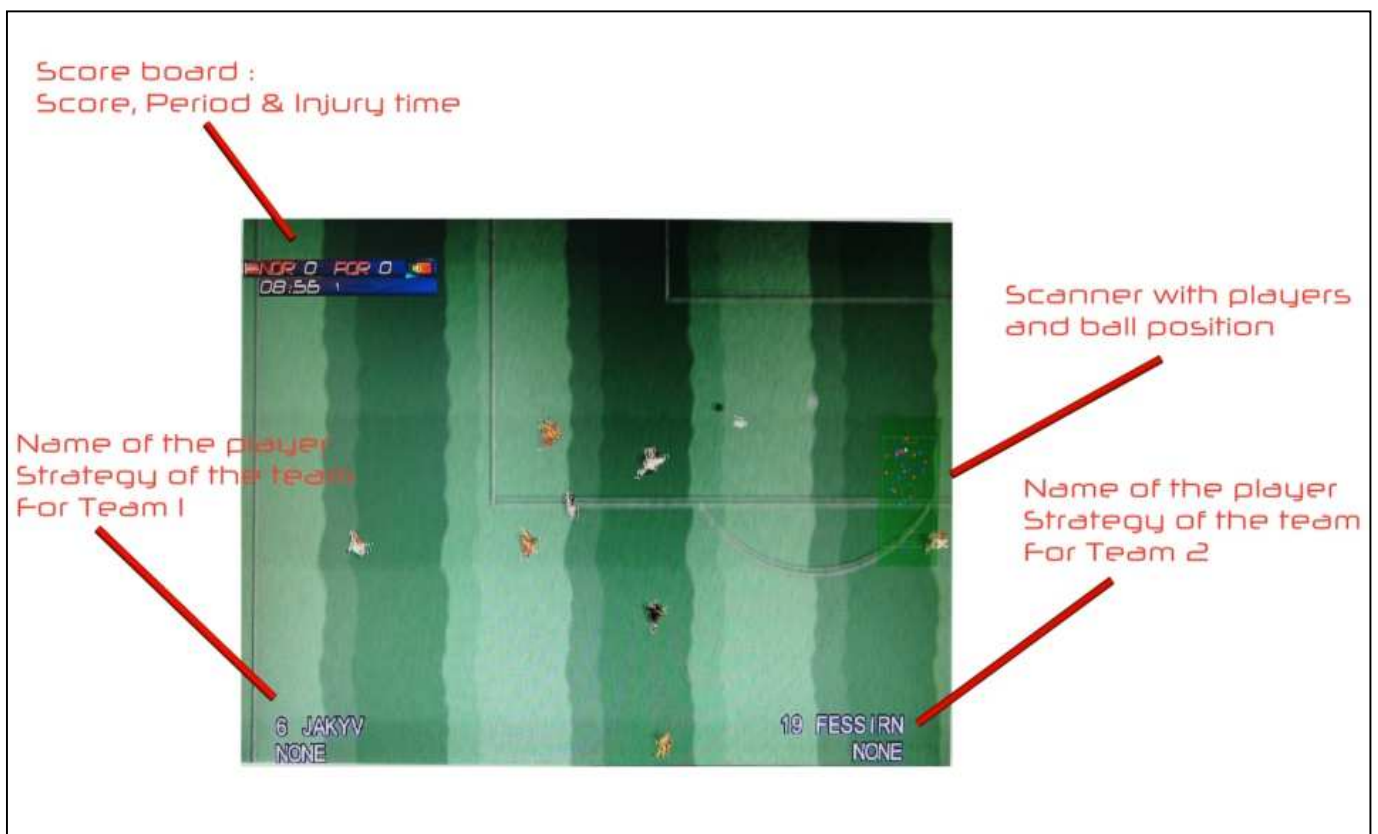

### 0) The most important : the commands on the field !

Important : This game is only playable with Joypads.

- Hope you know the football rules, if not go to Google. Each rule is respected in this game, even the Offside rule.
- During the team presentation or statistics of the game, press the Space bar to skip.
- During the match is playing, press "P" to pause the game. Then follow the screen instructions to resume the match, to quit the match, to give up the match (in competitions) or to change the skill level of a team played by the PC.

### a) Your player control :

- Your controlled player is selected by the pc : it's always the nearest player from the ball. You can locate it on the screen by the colored arrow near to him.
- Use the Stick to move your player. His speed depends of his individual skill and if he is exhausted or not. But it can increase if he is on a long run to go to the action.
- Press the R1 button to make a « Call bench ». An icon will be displayed on the screen and as soon the referee is ok you will go to the management team screen and you could make some substitutions if you want it. (Look at the Team management section for more informations.)

- If your player has the ball control, press Button 1 to shoot. The longer you press the more powerfull will be the shoot. Note that you can anticipate the kick juste before touching the ball.

- If your player has the ball, press Button 2 to pass the ball. When you press it, your player will stop and you can turn it to the direction you want to pass. Release to pass to the nearest player in this direction.
- If your player has not the ball, press Button 1 to tackle or to head, according the ball position. Note that a player will always tackling to the ball, but a head is made in the direction where the player is going. You can control the trajectory of the ball when you hit the ball with the head by moving the Stick in the direction you want.
- If your player is far from the ball, press Button 2 to automatically move to the ball. His speed will not be at his max when you use it.
- If your player has the ball near the opposite goal zone, press Button 3 to center the ball to one of your player in the zone.
- If you press the L1 button, you change the tactical behaviour of your players. They are several of them available : Offside, Counter Attack, etc. The tactical disposition of your team appears at the bottom of the screen, under the name of the player you control.

### b) Goal keeper control :

- Goal keepers are controlled automatically during the match, but after a goal kick or when he catches the ball, it will be up to you to decide what to do.
- Press Button 2 (and not Button 1) to throw the ball in the direction you want with the analogic stick. If you move the stick to the left, the ball will be kicked or thrown to the left, etc.
- If you don't press this button for a while, the goal keeper will pass the ball randomly to a player.

### c) Throw in :

- Move the stick to the left and the right to turn your player and press the Button 1. A power bar will appear. Release it when you want.

#### d) Corner kicks :

- Move the stick to the Left and the Right to choose the direction of the kick, and Up and Down to choose the height of the kick. Press the Button 1 and a power bar will appear. Release it when you want.

#### e) Indirect free kicks :

- They are automatically done.

#### f) Direct free kicks :

- Move the stick to the Left and the Right to choose the direction of the kick, and Up and Down to choose the height of the kick. Press the Button 1 and a power bar will appear. Release it when you want.

#### g) Penalty kicks :

- If a foul has been committed in the goal zone, a penalty kick will follow. The keeper will be automatically controlled. But for the kicker, an arrow will appear. It'll move to the left and the right, for the direction of the kick, and will grow up and grow down, for the height of the kick. Its speed depends of the abilities of the kicker. Press Button 1 at the good moment to succeed your penalty kick.

#### h) The Aftertouch Effect :

- After a shoot, a free kick, a corner kick, etc., you will be able to use an Aftertouch effect. You must imagine that your stick is your player to use it.
- Move the stick to the opposite direction of your player to increase the height of the kick.
- Move the stick to the direction of your player to decrease the height of the kick.

- Move the stick to your player's left to curve the trajectory of the ball to the left.
- Move the stick to your player's right to curve the trajectory of the ball to the right.
- Note that this effect is only available for a short moment after the kick.

### j) The Team Management Screen :

- Before a match, at half time, or when a "Call Bench" is accepted, you go to this screen :

- On this screen you can change the Strategy of your team or its tactical behaviour : press the Button 1 to do it.
- You can substitute players or permute players by pressing the Button 1 on Substitution. You go to this screen :

- When you ask for it you will see a list of players. Players with a "F" before the name are on the field. The others are the substitutes available. For each player you can see several informations in a table :

SR for Strength

SK for Skill

PA for Passing

ST for Stamina

TA for Tackling

At the beginning of a match, some players may have Up or Down indicators. Players with a Up are at their top forms, those with a Down are not at their max. It will help you to make to good team composition before the match starts.

- Each of them defines the abilities of your player. The maximum value is 100.
- For each player you will see eventually red or yellow cards. And for each player on the field, you will see the Power value. This value decreases during the game and so the player will move slowly if he is tired.

- To substitute or permute a player, choose a first player by moving the box with your pad and press Button 1. A "S" will appear in front of it.
- Then choose a second player or a substitute and press again the Button 1.

- To cancel your substitution demand, press the Button 1 on Reinit or press it on Proceed to make the asking substitutions.
- Note that in every match only 3 substitutions are allowed and that during the game, you have 60 seconds to manage your team.

### k) Replays and highlights :

- After that a goal is scored, or after some goal kicks, corners, etc. you will see a replay video. You can skip it by pressing the R1 button.
- At half-time, at the end of the game, etc. you will see Highlights of the game. You can skip it by pressing the R1 button. You can choose to see the next highlight by pressing the Right key or the previous by pressing the Left key. You can save one of this replay by pressing "S". Replays files are saved to the "Replays" directory of the game.
- Note that Highlights are saved after a goal kick, a corner kick, a goal, a foul, etc. If you want to save a Highlight to review a beautiful action on the field, press R on the keyboard just after this action has been played.

### l) Penalty shots to end a match :

- You will see a screen menu that will let you permute kickers before to start. Permute the kickers as for a substitution.
- When a match must be ended by penalty shoots, you will take control of the keeper and the kicker of your team.
- The keeper is control by moving the Stick to the left or the right to stop the ball.
- To shoot, choose a direction with your pad : left and right and press Button 1 or Button 2. Button 1 will provide you a powerful kick but

with a poor precision ; Button 2 will give you a less powerful kick but more accurate.

- The winner is the one with the most goals scored after a serie of 5 penalties, or the only to score after the first serie of 5 kicks. You can see the progression of the serie with a green spot for every successful kick and a red light for every missed kick.

### m) Injured players and cards :

- A foul can be done when a player is tackling badly an opposite player or if two opposite players are too hardly in contact.
  - In some case, a player can be injured. An injured player can still play on the field but its speed will be very slow, so will then access to the team management screen to substitute him.
  - When there is a foul on the field, the referee can give a yellow card or a red card to a player. A red card or two yellow cards in the same match and the player is ejected from the field.
-
